Sri Surya Junior Colllege
Nagari, India | April 2021

SKILLS

- HTML 5
- MySQL
- CSS
- Java

PROJECTS

College Website
Individual Project
- Developed a comprehensive website for a college with sections including College, Contact, Blog, Course, and About using HTML and CSS.
- Managed the project from initial concept and design to implementation and testing.
- Ensured the website was fully responsive and accessible across various devices and browsers.
- Incorporated feedback to refine the design and functionality, ensuring an optimal user experience.

CSS Generator Tools
Individual Project
- Created a CSS generator tool website that includes tools for generating CSS properties such as border-radius, border, transform, column, filter, box-shadow, and text-shadow using HTML, CSS, and JavaScript.
- Designed and implemented an intuitive user interface allowing users to easily adjust parameters and see real-time updates of the generated CSS code.
- Utilized JavaScript to dynamically update the CSS code based on user inputs, providing a seamless and interactive user experience.
- Tested the tool across multiple browsers to ensure compatibility and functionality
